Need help? Ask at the information desk next to the stairs or speak with a volunteer - they are designated with pentacles.

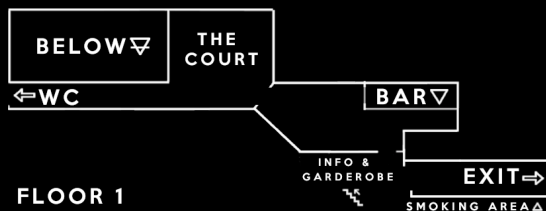

Please respect the space and stay within the appointed areas. Flutgraben is used as studio space by a variety of artists and we are guests here.

Please don't touch the art which is exhibited throughout the space! If you have questions, please find the artists' table in The Court.

We have a strict policy of **PHOTOGRAPHY ONLY WITH CONSENT**. Please do not take photos of anyone without getting their permission first. We will be recording lectures and will make every effort to only capture the speaker. Please keep this in mind when moving through the space.

Please **NO PHONES** during workshops or rituals. Allow yourself and others to fully take part in the experience.

We're striving for a zero-waste event so please be conscious of this. Please bring your water bottles (water will be provided), use the butt cans in the smoking area and don't litter.

# ABOUT THE ORGANIZERS

---

One night some years ago, a group of mysterious adepts arrived in Berlin. Their appearance was heralded by a strange sign—a red snow falling gently from the east. Each came independently, navigating to our plane from different timelines, called to travel at once to this dimension. As they arrived one by one at the noodle restaurant housing the Berlin Kuman Thong , the kaleidoscopic consortium realised their meeting was no accident. Drawn together by fate, bonded by strength in the arcane arts, they resolved to establish a new order dedicated to the pursuit of occult knowledge in all its forms. Thus the Fellowship of the White Mountain was born.

Coming from a multiverse where Magick is a fundamental part of everyday life, the Fellowship see further than the grid of matter. This augmented sight has showed them the golden path to enact the singularity of an active transdimensional wormhole. Occulture stands at the crossroad of this initiation.

## VR

### Cyber Mystery School - Seventh Ray (Virtual Initiation)

The Seventh Ray experience is inspired by Mystery School initiation techniques and occult practices of the ancient world. The Seventh Ray is designed to provide a catalysing initiatory experience, incorporating the rich symbolism of the Mystery Traditions into a Cyberdelic first-hand experience of an 'other' reality. The Seventh Ray seeks to explore the combined power of drama with the particular state of awareness one feels when they fully inhabit a mixed reality. The ancient texts give us a formula, the emerging technologies of VR and MR give us the tools to revive these ancient rites into unimaginable dimensions. Mixed Reality gives us the opportunity to play with perception and identity. During the Seventh Ray we explore 'out-of-body' sensations (Outraspectre) using somatic technology. We have taken our inspiration from thousands of years of 'Mystery Schools' all over the ancient world. Within these institutions initiates received - via secret and mysterious rites, a powerful awakening to the deepest secrets of nature.

### Virtual Awakening - Death is only the beginning (VR NDE)

"Death is only the Beginning" is based on a conceptual representation of a near death experience (NDE). This is not "edutainment". It is a experience best completed with a strong personal intention. Preparatory and follow-up work are essential to make the most out of this experience. A mindfully curated environment precedes and follows the experience. Following the preparatory personal and group practices, participants are transitioned into the VR environment in small groups. 360 degree immersive storytelling allows them to step into the life of someone who is unconsciously caught up in the negative consequences of modern living. The embodied Mindful VR experience facilitates an empathic resonance with this character's perspective, mindset, and body. The NDE begins as the participant fully embodies this character at the moment their mind/body reaches its limits and forcefully demands attention. At the moment the body says "Enough", the mind and consciousness are freed to explore the experience of dying. Participants explore various stages of an NDE, as detailed in the medical literature by those given a second chance at life. They are invited to a life review, raising awareness of critical global, social and relational issues facing all of humanity today. They explore an afterlife realm which prompts a wider view of what it means to be human; in this life...at this time. They journey through real and imagined environments made of holographic light, sacred geometry, and complex fractals. They experience a rebirth and invited to consider how they might proceed now that they have this precious "second chance".
